

TAP & WASH WITH CT400

Quest Payment Systems have developed the CT400 contactless payment terminal which is easily retrofitted to all your onsite carwash equipment, including: Self serve bays, Automatic carwash entry system, Vacuums, Vending machines & Dogwash.

Accepting payments reliably anywhere at your carwash is now available with the water and dustproof Quest CT400 Contactless Payment Terminal.

AUSTRALIA'S ONLY LOCALLY DESIGNED AND MANUFACTURED PAYMENT TERMINAL

- Contactless payment – Not card insert/swipe or PIN required
- Customised for the carwash industry
- Run by its own SIM card
- Smallest footprint on the market
- Completely wireless
- Competitive merchant fees with NAB
- Funds received daily once cleared through NAB
- Remote software upgrade
- Waterproof IP65 standards
- Works off a simple pulse – your new generation coin mech
- Offers daily reports of real-time payments & cash flow
- Simple to install
- Increase average spend per customer
- Replaces the need for tokens
- Less cash/coin/token handling
- Alternate payment method for coin jams/faulty coin mech

The CT400 payment system is powered by an airPay Contactless NFC Reader, is NFC ready (Near Field Communication) and accepts MasterCard Contactless, Visa payWave, Amex ExpressPay, and eftpos Contactless card schemes.
